**Subject: Letter of recommendation  
An Vos – Sr. ValuMetrix Consultant EMEA**

I have had the pleasure of both managing and working alongside An Vos in her role as a ValuMetrix Consultant over the past four years.

I have seen An develop substantially in this role and she now demonstrates excellent leadership and facilitation skills. She has developed to the stage where she takes complete accountability for client engagements. She demonstrates a very high level of responsibility and commitment to all of her clients.

An has a great sense of urgency attached to her engagements and client base. She is an excellent organizer and has the ability to get good cooperation from colleagues and clients to “make things happen”.

I have observed substantial development in the area of strategic “out of the box” thinking as An has further grown in the Lean consultancy role and has engaged in strategically based projects. 2012 was clearly the most successful year in An’s career within the ValuMetrix group. She has taken the lead role in the VMx sales process and has secured a number of substantial and strategic wins. An is an asset for J+J and her skills should be utilized at MD+D levels within the organization.

Regards,

**Paul M Button**
